Home-Schooled Student Admissions

Becoming a Home-Schooled Student at NHTI Is Easy

NHTI offers rolling enrollment, which means it's always a good time to enroll for next semester! Not sure what program to choose? Review the **programs of study (https://www.nhti.edu/programs/)** or email an admissions counselor at **NHTIadmissions@ccsnh.edu (mailto:NHTIadmissions@ccsnh.edu)**.

Many home-schooled students are admitted to NHTI each year and find success both academically and socially at the college. We understand that your academic background differs from students who attended traditional public, private, or charter schools. Our small class size and active campus life allows you to engage closely with faculty, staff, and fellow students and become part of our community.
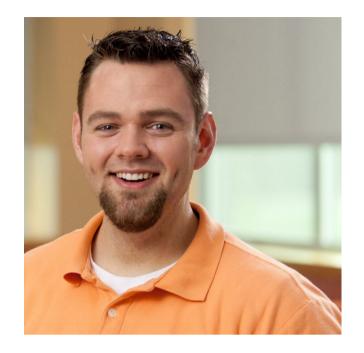

1. Apply for Admission

Great news: There is no application fee! If you fill out the online application, you will need to create a new account; click "First time user account creation" and follow the instructions.

While the nature of home schooling is unique to each student, NHTI requires appropriate documentation, which may include the following:

1. A letter from your local school district stating you have completed a home school program at the high school level
2. A list of courses taken and grades earned and/or portfolio of work accomplished
3. High school equivalency or other testing, if applicable
4. An official transcript if your home school curriculum is provided by a U.S. regionally accredited school

Contact the director of admissions with any questions regarding documentation and/or admission to NHTI programs at 603-230-4011 or NHTIadmissions@ccsnh.edu (mailto:nhtiadmissions@ccsnh.edu).
